DEPARTMENT OF PUBLIC WORKS AND HIGHWAYS  
OFFICE OF THE PROJECT DIRECTOR  
RMC-I - BILATERAL UPMO  
RECEIVED BY: Susan 2/11/26

**Subject : Justification for Replacement of Deputy Project Manager (DED)**

Reference is made to the following:

- 1) DPWH letter dated December 11, 2026 on Approval of Advance Mobilization
- 2) Our letter with Ref. No. DAL-DED-DPWH-002 dated January 12, 2026 on request of replacement of Deputy Project Manager
- 3) DPWH letter dated January 30, 2026 on Request for Approval of Replacement of the Following Non-Key Personnel for 24CSZ005: Consulting Services for the Dalton Pass East Alignment Road Project under JICA Loan Agreement No. PH-P280.

Dear Sir:

First of all, we very much appreciate your strong support for our services per your letter in above Reference No. 3.

After due consideration, we would like to explain the reason of the replacement with necessary supporting documents in accordance with your instructions.

**1. Detailed explanation and supporting documentation proving the personnel's unavailability was truly unavoidable and unforeseen**

Detailed clarification by Mr. Ippei Iwamoto, original candidate for DPM position, is presented in Attachment-1 with the supporting documents which are summarized below:

- From September 27 to 28, 2024, Nepal experienced its largest recorded torrential rainfall since 1970, resulting in catastrophic damage. More than 200 people lost their lives, and multiple major roads were severed. The Sindhuli Road also suffered damage including sections being washed away.
- In March 2025, JICA sent the survey team to the site as "The Programme for Emergency Rehabilitation of Sindhuli Road Affected by Flood in Nepal". Regrettably, due to a serious

illness involving the original Team Leader and unavailability of other qualified candidates, NK appointed Mr. Iwamoto as an emergency replacement.

- Subsequently, the original Team Leader was hospitalized and JICA requested Mr. Iwamoto to take over.
- After the survey phase, the subsequent phase of detailed design and construction supervision was formed and JICA requested NK to deploy Mr. Iwamoto continuously as Team Leader of the project. The consulting service contract was certified by JICA on October 30, 2025 (refer to Attachment-2) and the Government of Nepal and NK have concluded the contract in January 2026.
- Under such circumstances, Mr. Iwamoto is deployed to Nepal as Team Leader of “Programme for Emergency Rehabilitation of Sindhuli Road Affected by Floods” at this moment.

As explained above, the original Team Leader’s sudden illness was entirely unforeseeable. Mr. Iwamoto’s assignment was a necessary measure to meet the urgent demands of the rehabilitation project.

## 2. Formal certification that this change will not cause overall reduction in the quality of the Services

Following table shows the comparison between the original expert and the substitute expert based on the requirements prescribed in the TOR:

| Required Experience (TOR)                                                                                                         | Original (Mr. Iwamoto)                                                                                                                                                            | Replacement (Mr. Imada)                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |

| (For additional reference)<br>Other notable professional background              |                                                                        | Responsible for the preparation of Bidding Documents for a large-scaled bridge construction project in Kenya |

The details provided above confirms that the substitute satisfies the minimum experience prescribed in the TOR and brings more extensive ODA project experience than the original candidate. Moreover, the nominated replacement for Deputy Project Manager is a specialist in bridge engineering, offering a distinct advantage over the original candidate's highway engineering background. Given that the Project Manager specializes in highways and tunnels, this substitution creates a more balanced leadership team ensuring comprehensive oversight and supervision across all project components. Furthermore, the substitute offers specialized expertise in the preparation of bidding documents. We anticipate that this additional capability will contribute to the overall improvement and technical quality of the consulting services that we will provide.

May we request for your consideration and understanding regarding these unforeseen circumstances. We have full confidence that Mr. Imada is highly qualified for the Deputy Project Manager role. We trust this explanation meets your needs and look forward to receiving your formal approval shortly.

Thank you very much for your kind attention.

Very truly yours,

ICHIZURU ISHIMOTO  
Project Manager

Attachment-1: Clarification for Inability to Undertake the Assignment of the Services

Attachment-2: Agreement between The Department of Roads, Ministry of Physical Infrastructure and Transport, Nepal and The Joint Venture of Nippon Koei Co., Ltd. and Yachiyo Engineering Co., Ltd. Japan regarding Consulting Services for The Programme for Emergency Rehabilitation of Sindhuli Road Affected by Floods

**Clarification for Inability to Undertake the Assignment of  
the Project for Construction of Dalton Pass East Alignment Road**

This is to formally clarify the circumstances under which Mr. Ippei Iwamoto, Nippon Koei is unable to undertake the proposed Consulting Service assignment under the captioned project.

From September 27 to 28, 2024, Nepal experienced its largest recorded torrential rainfall since 1970, resulting in catastrophic damage. More than 200 people lost their lives, and multiple major roads were severed. The Sindhuli Road also suffered damage, including sections being washed away. In April 2025, during the survey stage of "The Programme for Emergency Rehabilitation of Sindhuli Road Affected by Flood in Nepal", the originally appointed Team Leader became unable to continue due to health reasons. Consequently, Mr. Iwamoto was required to take over the role of Team Leader to ensure continuity and proper implementation of the project, as no other engineer within the team possessed prior experience in Nepal to assume this responsibility.

Following the completion of the survey phase in October 2025, in accordance with the standard implementation procedure of the Government of Japan's Grant Aid programme, JICA recommended Nippon Koei to the Government of Nepal for the subsequent services covering detailed design and construction supervision under the same Programme, on the understanding that the same Team Leader would continue in order to ensure continuity of the services. Based on this recommendation, a contract was signed with the Government of Nepal for the contract period from December 2025 to December 2028.

In view of the importance of maintaining continuity in leadership, replacement of the Team Leader is not envisaged under the current contractual arrangement. Furthermore, the long-term and full-time commitment required under this contract prevents Mr. Iwamoto from concurrently undertaking the DPWH assignment. As an alternative arrangement, we would like to propose a replacement expert possessing qualifications and experience equivalent to those of Mr. Iwamoto for your kind consideration.

We sincerely regret any inconvenience this may cause and appreciate your kind understanding.

Sincerely yours,

岩本 一平

## CONSULTING SERVICE AGREEMENT

THIS AGREEMENT, made and entered into this 19<sup>th</sup> day of December, 2025 by and between the Department of Roads, Ministry of Physical Infrastructure and Transport, Nepal (hereinafter referred to as the "Client") and the Joint Venture of Nippon Koei Co., Ltd. and Yachiyo Engineering Co., Ltd. (hereinafter referred to as the "Consultant") (the Client and the Consultant hereinafter collectively referred to as the "Parties"), consisting of the following entities, namely, Nippon Koei Co., Ltd. (hereinafter referred to as the "Lead Member") and Yachiyo Engineering Co., Ltd., each of which has been duly organized and existing under the laws of Japan,

### WITNESSETH:

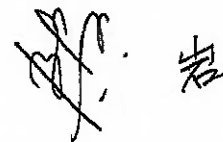

WHEREAS, the Japan International Cooperation Agency (hereinafter referred to as "JICA") extends a grant to the Government of Nepal on the basis of the Grant Agreement (hereinafter referred to as the "G/A") signed on the 30th day of October, 2025 between the Government of Nepal (hereinafter referred to as the "Recipient Country") and JICA concerning the Programme for Emergency Rehabilitation of Sindhuli Road Affected by Floods mentioned (hereinafter referred to as the "Programme");

WHEREAS, the Client, as a competent authority for the Programme is desirous of receiving consulting services of the Consultant for the Programme; and

WHEREAS, the Consultant is willing to furnish such services to the Client under the terms and conditions as set forth in this Agreement;

NOW, THEREFORE, in consideration of the mutual covenants hereinafter contained, the Parties agree as follows:

1. The rights and obligations of each Party shall be as set forth in this Agreement, including:
  - (a) the Consultant shall carry out its services in accordance with the provisions of this Agreement and the Contract (defined in the General Conditions of Agreement);
  - (b) the Client shall make payments to the Consultant in accordance with the provisions of this Agreement.
2. The following documents shall be deemed to form and to be read and construed as part of

Handwritten signature and initials in black ink, located at the bottom right of the page.

this Agreement. This Agreement shall prevail over all other following documents. The words and expressions shall have the same meanings as those which are provided in this Agreement and the General Conditions of Agreement.

- (i) Special Conditions of Agreement,
- (ii) General Conditions of Agreement (including Exhibits), and
- (iii) Acknowledgement of Compliance with Procurement Guidelines for the Japanese Grants (Type I).

IN WITNESS WHEREOF, the Parties hereto have caused this Agreement to be signed, as of the date first above written, in their respective names in duplicate, each Party retaining one (1) copy thereof.
